

Data Platform

By leveraging our quantitative and technology expertise, we provide a managed cloud-based service for quantitative data management to deliver usable data into your research and analytics processes.

Whether you have an established data team and are looking to increase efficiency and reduce costs or want to enhance your trading strategies with additional data, our Data Platform offering adapts to fit your requirements.

SOLUTIONS FOR:

1. Quantitative Funds
2. Non-Quantitative Funds looking to add quant workloads
3. Fund with two or more sources of data looking to do back-testing
4. Startups & Established Funds
5. Funds leveraging quantamental research practices

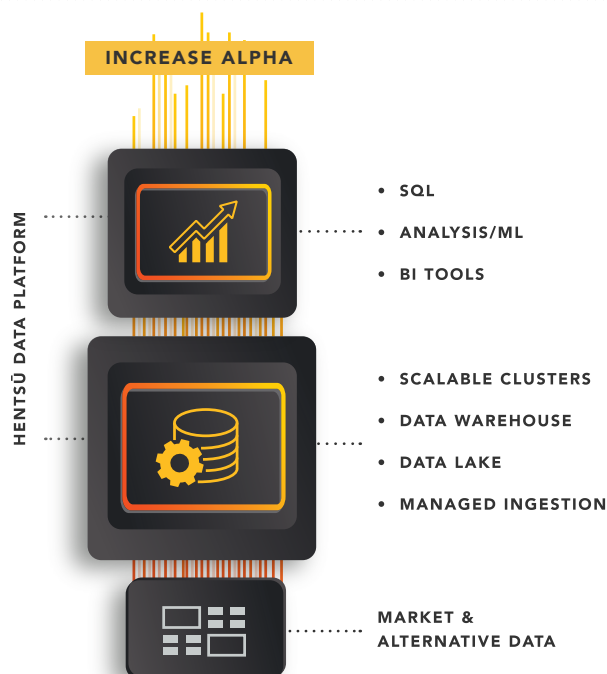

SOLUTION OVERVIEW

- Covers traditional and alternative market data
- Your data is loaded into data warehouses
- Data is ready to be consumed by your research, strategies or compute clusters
- Folds seamlessly into our corporate IT services for an all-encompassing managed technology solution
- Available as a service with a monthly flat fee

THE BENEFITS

Hentsū's Data Platform offering gives you full ownership of your data and pairs it with the support of end-to-end system management. When you partner with us you also gain:

- ✓ Cost effective access to new data
- ✓ On demand pricing, only pay when you are processing
- ✓ Optimised data storage to reduce costs and increase performance
- ✓ Complete integration into your environment
- ✓ A partner with access to cloud scale databases
- ✓ The ability to run hundreds of pipelines at the same time with no performance loss
- ✓ Usage flexibility which allows you to scale the power of your database
- ✓ The Data Warehouse supports ACID transaction logs, time travel and schema changes

Working with data can be expensive, time consuming and requires a high degree of knowledge and experience. Contact us today to better understand how we can support you in building out your quantitative data solutions.
